

4 Courses

Building Web Applications in  
PHP

Introduction to Structured Query  
Language (SQL)

Building Database Applications  
in PHP

JavaScript, jQuery, and JSON

23.07.2020

**Zahiruddin Zahidanishah**

has successfully completed the online, non-credit Specialization

# Web Applications for Everybody

The Web Applications for Everybody Specialization introduced learners to the basics of building interactive web and database applications in PHP, using SQL for database creation, as well as functionality in JavaScript, jQuery, and JSON.

Charles Severance  
Clinical Associate  
Professor, School of  
Information,  
University of Michigan

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
